

AIR VAC

AIR VAC

WHAT IT'S FOR

The Air VAC is a portable or stationary multi-stage filter system, used for localised extraction and filtration at the source.

ADVANTAGES

- Localised for ease of use
- Worker protection
- Dust / Fumes Contaminant

HOW IT WORKS

Using a flexible arm to place the extraction point as close to the source of the contaminant. Allows for pin point removal, while having the advantage of a mobile unit.

APPLICATIONS

- Relatively low dust / fume applications
- Welding
- Cutting
- Grinding
- Product Bagging / Packaging
- Dust Generating Points
